

Airport photovoltaic container DC

Overview

Once completed, it will be the largest renewable energy project ever developed at a U. It will generate up to 100 megawatts (MW) of solar energy and store up to 50 MW of power, enough clean energy to power more than 37,000 Virginia homes at peak output. Officials from Dominion Energy and the Metropolitan Washington Airports Authority (MWAA) were joined by federal, state and local leaders Tuesday to break ground on the Dulles Solar and Storage project at Dulles International Airport. The project will. LOUDOUN COUNTY, Va. See the full story in WTOP News.
