

# **Belgian household rooftop power station energy storage lithium battery**

## Overview

---

Summary: Discover how lithium batteries are transforming energy storage for Belgian households with rooftop solar systems. ENGIE has officially completed both phases of its 200 MW battery energy storage system (BESS) at Vilvoorde, Belgium. The 800 MWh installation, composed of 320 lithium-ion battery modules, is now fully connected to the grid. The batteries, 40 Intensium Max High Energy lithium-ion containers, will be supplied by Saft, the battery subsidiary by the end of 2024, will help meet the needs of the European. Download the Press Release (PDF) Paris, - TotalEnergies has launched at its Antwerp refinery (Belgium), a battery farm project for energy storage with a power rating of 25 MW and capacity of 75 MWh, equivalent to the daily consumption of close to 10,000 households. The project will be delivered by NHOA Energy to ENGIE under a supply contract.
