

# Bogota electricity

## Overview

---

Electricity consumption is measured with electricity meters, that are placed on the outside walls of the houses or in the common areas of condominiums. Meters are individual for each residence. In the transmission business, GEB has a significant presence in Latin America (Colombia, Peru, Brazil and Guatemala); We seek to be the leading developer of this type of network, through profitable organic growth and accelerated inorganic growth, leveraged on transformative investments. With a firm commitment to improving air quality and reducing carbon emissions, Bogota is positioned as one of the cities with the highest growth in electric mobility in Latin America. Bringing energy to all corners of Bogotá and offering a reliable quality product to the more than one hundred municipalities in Cundinamarca is our *raison d'etre*. Enel Colombia leads the Colombian market with 3.
