

# Can cigarettes be stored in lockers

## Overview

---

Keep your cigarettes fresh by sealing them in airtight containers or cases. The result is a harsher taste. Is there anything in writing about what can and can not be stored in an employees locker?

We currently have a no food policy. Is it up to each. Safety cabinets or safety lockers are designed to safely store flammable liquids, gases, or other hazardous materials in compliance with regulatory requirements. Flammable liquids and gases are classified based on their inherent qualities. cigarettes, matches, lighters, etc), either intentional or otherwise, has led to a number of fires in health care facilities over the years - fires that have resulted in serious injury and even death. 152 requires all portable tanks, not exceeding 660 gallons, shall be provided with emergency venting and other devices, as required by chapters III and IV of. Airtight containers are one of the simplest and most effective ways to store cigarettes. These containers reduce exposure to air, keeping them fresher for longer.
