

# Can photovoltaic panels be placed on the balcony to charge

51.2V  
200Ah/300Ah  
LiFePO4 battery

## Overview

---

Balcony solar (also known as “plug-in solar”) consists of 1–3 portable, lightweight panels that attach to a balcony railing, patio, or fence. Unlike traditional solar, these systems: Plug into a standard 120V wall outlet using a specialized microinverter. The portable nature allows renters to take their investment when moving, making it ideal for apartment living. While a balcony doesn't offer as much space as a rooftop or a ground-mounted system, it can still capture sufficient sunlight to power small appliances, charge devices, or offset. There are 2 overall types of balcony solar panels: 1.
