

Estonian solar panel production plant

Overview

Solarstone, an Estonian firm specializing in solar-paneled roofs, has inaugurated an automated production line at its Viljandi plant, establishing it as Europe's largest integrated solar panel manufacturing facility. The new line incorporates three advanced industrial robots, enabling solar roof. Yet, a closer look at meteorological data and modern photovoltaic advancements reveals a compelling business case—not for mass-producing standard panels, but for creating specialized modules engineered for the unique challenges and opportunities of the Nordic climate. The factory can assemble 13,000 integrated solar panels per month.
