

Exchange of Lebanese Folding Containers for Aquaculture Industry

Overview

To increase the local fish production and supply, the Program focuses on three main areas: (i) Coastal/Marine fisheries; (ii) Research; (iii) Aquaculture. Other areas of activities would be concentrated on fresh water fisheries, fishermen training and capacity building. The Food and Agriculture Organization of the United Nations (FAO) is leading international efforts in the fight against hunger. Serving both developed and developing countries, FAO acts as a neutral forum where all nations meet as equals to negotiate agreements and debate policy. FAO is also a. Within the framework of the development of the aquaculture sector in Lebanon, the Lebanese Ministry of Agriculture and the General Fisheries Commission for the Mediterranean (GFCM) of the Food and Agriculture Organization of the United Nations (FAO) today reaffirmed their commitment to build a. This sectoral Program, to be implemented in 5 years with an expected budget of USD 10,000,000, is directed at Lebanese anglers, in particular in the Batroun area, 35 km north of Beirut. It aims at the rehabilitation and upgrading of the Government facilities and capacity building for the Department. A first ever mapping and analysis of the commercial seafood chain in Lebanon was conducted in 2017. This study was carried out to better understand the existing fisheries market in Lebanon in order to map the flows of products throughout the different stages of the commercial seafood chain. This. At Container Axis, we provide the finest quality shipping containers built for durability, safety, and performance in Lebanon. Container Axis ensures faster. ein, 1997). Tilapia farming was recently tried out through several.
