Philippines awards over 6GW of solar capacity in latest ...

The Philippines has awarded 10.19GW of new energy capacity in its fourth auction round, with solar accounting for more than 6GW of capacity.

\$600M Secured for Massive Solar-Storage Project in the Philippines

UK investment firm Actis has finalised its \$600 million investment in Terra Solar Philippines Inc., securing an equity stake in a ground-breaking GW-scale solar and energy storage project.

Holcim Philippines signs 20-year solar deal with Peak Energy

Holcim Philippines Inc., the local unit of the Swiss building materials giant, has entered into a 20-year power purchase agreement with Singapore-based Peak Energy to develop one of the ...

Holcim Philippines taps Peak Energy for solar

Under the partnership, Peak Energy will build and operate ground-mounted solar photovoltaic (PV) systems at Holcim Philippines' plants in La Union and Bulacan. "Combined, these ...

Largest Solar Energy Projects in the Philippines Online and in the

In Luzon, two high-capacity solar facilities are progressing toward their critical commissioning phase, underscoring ARI's shift in focus to the northern grid. The 211 MWp Olongapo ...

Philippines gets first 24/7 solar power as tycoon Saavedra's Citicore

With its first gigawatt nearly complete, Citicore is preparing to start construction of a second gigawatt that will include solar, integrated renewable energy systems, and onshore wind.

Philippine solar power firm CREC earmarks \$2 billion spending, eyes

CREC primarily operates solar farms and grid-scale batteries to deal with power intermittency and support reliable and instant power to the grid. It now aims to outperform its original ...

Citicore secures \$55M financing for Philippines' first 24/7 solar plant

Citicore Solar Energy Corp. and Pentagreen Capital have finalized a \$55 million financing agreement to accelerate solar and battery storage projects across the Philippines, including the ...
