

# How to extend the warranty period of photovoltaic bracket

## Overview

---

Some companies offer extended product or power warranties to give you added peace of mind. Need solar service?

. Performance warranties, usually extending 25-30 years, guarantee the panels' power output capacity over time. This long-term commitment offers a significant. However, the Marketwatch Guides Team suggests opting for solar panels equipped with a 25-year product warranty, as several brands now offer this extended coverage. System owners thereby benefit from the unrivalled high-quality service of our Fronius Support team well into the future. Although the average panel lifespan is estimated at around 30 years, most clean energy systems pay for themselves in energy savings in just 12 years.
