

Illegal installation of solar-powered communication cabinets and wind-solar hybrid

Overview

energy officials have launched an investigation after discovering unauthorized communication equipment embedded within Chinese-manufactured solar power inverters connected to critical infrastructure grids across the country. Power inverters can be found in solar panels and wind turbines that are connected to the electricity grid as well as batteries, heat pumps, and electric vehicle chargers. Mainly. Reuters reported last week that U. The federal government has “not publicly acknowledged the discoveries” and the two people speaking on the matter did not have permission to speak to. In May of 2025, U. Not listed in product documentation, these shadow components create hidden backdoors that can circumvent utility firewalls and allow. U.

Illegal installation of solar-powered communication cabinets and wi

'Rogue' communication devices found on Chinese-made solar power

One such incident occurred in November, when solar power inverters in the U.S. and elsewhere were disabled from China, highlighting the risk of foreign influence over local electricity

Rogue communication devices found in Chinese solar power inverters

In November, the Lithuanian government passed a law blocking remote Chinese access to solar, wind and battery installations above 100 kilowatts - by default restricting the use of Chinese

U.S. officials Investigating Rogue Communication Devices in Solar Power

U.S. energy officials have launched an investigation after discovering unauthorized communication equipment embedded within Chinese-manufactured solar power inverters connected ...

Undocumented communication devices found in Chinese solar

Rogue communication devices have been found in some Chinese solar power inverters and batteries, two people familiar with the matter told Reuters, raising concerns of potential security risks

U.S. Allegedly Finds Rogue Communication Devices in Chinese-Made Solar ...

That has created a vulnerability that suddenly feels more real, as Reuters is reporting that experts have discovered hidden communications equipment in various Chinese-manufactured ...

US uncovers hidden radios in Chinese solar inverters, sparks alarm

U.S. energy officials are reportedly reassessing the security risks posed by Chinese-made components in renewable energy infrastructure after discovering hidden communication ...

China's Unseen Cyber Threat to

1mwh (500kw/1mw)AIR COOLING
ENERGY STORAGE CONTAINER

Energy Security

Every solar panel and battery connected to the U.S. energy grid relies on a device few people ever consider: the power inverter. In May of 2025, U.S. experts found undocumented ...

'Rogue' Chinese spyware found on solar, battery equipment

However, rogue communication devices not listed in product documents have been found in some Chinese solar power inverters by U.S experts who strip down equipment hooked up to ...

US energy sector at risk, as Chinese inverters are under investigation

U.S. experts have allegedly found rogue communication devices, including cellular radios, in Chinese-made solar inverters and batteries over the past nine months.
