

Is it okay to rent a house to someone else to install photovoltaic panels

Overview

Can I install solar panels on the roof of a rented home?

In theory, yes. But we wouldn't recommend this; it doesn't make sense to spend so much on a property. While there are certainly benefits to going solar in a rental home, there are also some downsides that should be carefully considered before moving forward. The first thing you'll need to consider is whether your landlord will allow you to install solar panels. At GreenLancer, we have more than a decade of solar energy expertise with permitting and engineering. Solar panels offer multiple advantages for rental properties, making them an appealing option for landlords and tenants alike: For Landlords Increase Property Value: Solar panels can enhance the resale value of your property, as eco-friendly features are increasingly sought after. Since the rules vary depending on location, understanding your local regulations is crucial.
