

# Is there a team that can install photovoltaic panels

## Overview

---

Solar installers are people or corporations with contracting and electrical licenses that qualify them to work safely with photovoltaic (PV) systems, conduct a site assessment, calculate system capabilities, select a system design, adapt the mechanical design and the electrical. Solar installers are people or corporations with contracting and electrical licenses that qualify them to work safely with photovoltaic (PV) systems, conduct a site assessment, calculate system capabilities, select a system design, adapt the mechanical design and the electrical. We navigate city codes and handle your solar panel permits. Certified & Licensed Professionals: Our team is fully licensed and insured. We Specialize in NYC Building Types: We design custom residential solar panel systems for flat roofs. Reliable and renewable energy from the leading experts in photovoltaic, and NYC solar panels installation, Solar Mentor remains committed to providing only the finest and highest quality solar energy for businesses and homeowners. Our industry experts have a combined three decades of solar experience and maintain editorial independence for their reviews. No company can pay to alter the reviews or review scores shown. As a residential homeowner, small business, not-for-profit, or local government, you're eligible for NY-Sun incentives when you work with a participating contractor. Your contractor will: Participating contractors are all vetted by NYSERDA. [Click for more information »](#) .
