

New energy storage project in kyiv

Overview

Ukrainian private utility DTEK has energised the largest battery storage project in the war-torn country and one of the biggest ones in Eastern Europe. DTEK partnered with American energy firm Fluence Energy Inc. The 200 MW/400 MWh installation spans six sites ranging from 20 MW to 50 MW and connected to the power grid in the Kyiv and Dnipropetrovsk regions. The energy operator said the project, developed with the US's Fluence Energy, is the largest in Ukraine to date with the ability to power 600,000 apartments for two hours. The installation, which is spread over six sites in the Kyiv and Dnipropetrovsk regions, represents a significant investment of. The largest private energy company in Ukraine DTEK has commissioned 200 MW of energy storage facilities built in partnership with US-based Fluence, a global leader in energy storage technology. According to DTEK on September 11, six.
