

Photovoltaic panel base pony stool

Overview

Yes, it is possible to DIY a solar panel stand with basic materials like wood, metal, or PVC pipes. Active Pony builds upon our award-winning Saddle/Pony line with the addition of even more movement. The stool's base allows for healthy motion and targets a wide variety of core muscles, which helps minimize fatigue and build strength. Active Pony allows for full seven-degree movement, encouraging. These solar panel legs make setting up any solar panel easy and fast. Then the legs can be propped out, extended, adjusted, and stored easily and quickly. It's. Where traditional stools are often uncomfortable, static and stiff, Freedom® Active Pony task stool incorporates the same ergonomic design considerations as every other Humanscale product. You'll need one of these stands for each panel.
