The EcoFlow Power Hat gives major Gandalf energy as it captures solar energy from atop your head. Here's what I thought of the wearable charger. Feet of Lab Space Like many middle-aged men, I sport a prominent solar-powered area on top of my head -- otherwise known as a bald spot. Leave it. Support CleanTechnica's work through a Substack subscription or on Stripe. The Power Hat, a brand-new product from EcoFlow, is a lightweight and durable hat with solar cells integrated into its brim for 360° of solar coverage, with both USB-A and USB-C output ports. Black is a fairly common color for wide brimmed sunhats, and the chinstrap looks to be of good quality. That wide brim will keep those UV rays away from your face, neck, and a good portion of your upper torso.

Power generating solar hat

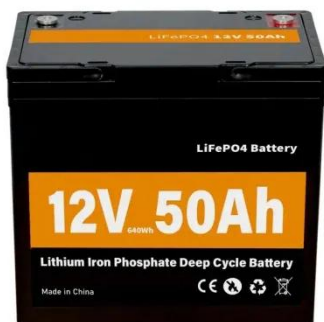

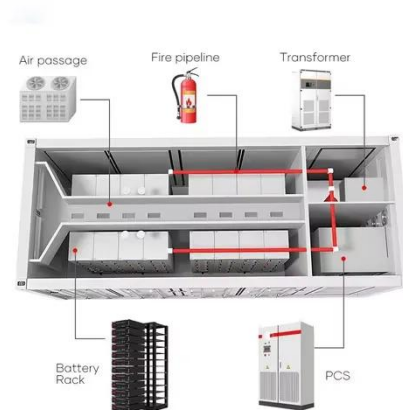

Power Automate

I signed out and in multiple times in "power automate". I also opened the "sharepoint app" in Office365 (whatever you're supposed to do with it) which worked fine. The sharepoint connector in ...
