

Price of 20-foot photovoltaic shipping containers for Australian islands

Overview

Short version: From 2024, it costs between \$2,800 and \$5,500 to ship a 20-foot container of solar panels around the world, depending on origin, destination, fuel prices, and demand. The 40-foot container, which is the one used for larger installations, ranges from \$4,500. At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. Whether you're powering a remote worksite, an off-grid project, or a backup energy system, our containers are built tough for Australian conditions. For the most accurate delivery cost, please call us or request a quote online.
