APPLICATION SCENARIOS

Overview

Between community solar, solar shingles, ground-mounted solar panels, and solar sheds or carports, there are several alternatives that let you benefit from solar without installing a rooftop system. There are many solar panel alternatives. There are two types of community solar projects: Subscription-based or ownership-based, depending on location. With the subscription-based model, you pay a monthly fee to buy a share of the electricity the community solar farm generates. One of the biggest challenges homeowners face is finding ways to save money while still achieving their desired look. Using a renewable source to provide your home with electricity and heating is an excellent way to reduce your carbon footprint.
