**Scooter battery**

The battery is installed in the pedal

**Built-in battery in car beam**

The battery is installed in the car beam

**Pack the battery in the box**

Thin the battery installation box, replace the battery core without changing the shell

**Ebike battery**

## Overview

---

From the 1st of January 2023, the Berlin Solar Ordinance mandates the installation of rooftop solar panels on all non-public construction projects in Berlin. primarily wind power, geothermal energy, biomass and solar energy, are inexhaustible sources of energy. The expansion of solar energy use is emphasised as a particularly important. Berlin's legal requirement to install solar power on new and renovated buildings has helped drive a surge in rooftop photovoltaics, reports pv magazine. In addition to new builds, existing buildings are included, where there are significant alterations to the roof. Here's what can be learned from their surging popularity in Germany. After the update in 2023, balcony photovoltaics.
