

Stop the energy storage project

Overview

While the deployment of energy storage systems across the U. has grown dramatically in the U. in recent years, they are facing resistance in some communities where residents have voiced concerns over the risk of energy storage system fires and the amount of space. One of the largest lithium-ion battery energy storage (BESS) facilities in the world, being proposed in the residentially-zoned Eden Valley community, in San Diego County. I think its very obvious that its a very bad location. If it was to catch on fire, it would be devastating to millions of people. 22 issued a 40-year license to build the Goldendale Energy Pumped Storage Project, a 1,200-megawatt energy storage facility southeast of. I am writing to express my concern regarding the proposed Battery Energy Storage System (BESS) project in San Juan Capistrano [Docket #: 24-OPT-02], developed by Compass Energy Storage LLC. The 40-year federal license requires the project to break ground within two years, although it still faces legal.

Stop the energy storage project

Residents remain opposed to Seguro battery facility ...

Residents neighboring a proposed Seguro battery storage facility in Eden Valley remain opposed to the large project, despite recent changes.

Energy Storage Proposals Face Pushback from Some Communities

On Sept. 11, the San Diego County Board of Supervisors unanimously rejected a proposed moratorium on battery energy storage systems, which had been suggested as an option by ...

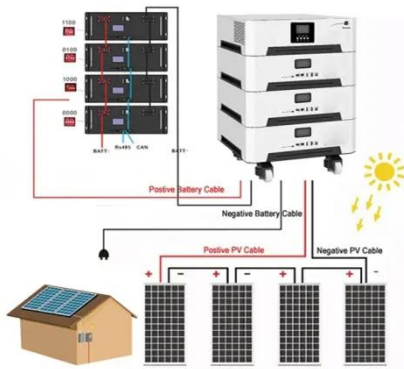

Leanne Luke Comments

I am writing to express my concern regarding the proposed Battery Energy Storage System (BESS) project in San Juan Capistrano [Docket #: 24-OPT-02], developed by Compass ...

Brooke Carter Comments

Please reconsider putting in a battery park. I think its very obvious that its a very bad location. The creek is very close, the I-5 is very close, high fire area and lots for people live very ...

Tribes Condemn FERC Approval Of Energy Storage Project

In a decision that has ignited fierce opposition from Indigenous leaders and environmental advocates, the Federal Energy Regulatory Commission (FERC) on Jan. 22 issued a 40-year license ...

Feds greenlight \$2B renewable energy project on Yakama Nation ...
