

The photovoltaic panel installation scam is real

Overview

If you've received an offer for "free solar panels," it could be a scam. Always look for businesses you can trust - like Accredited Businesses using the BBB Seal. Someone contacts you through email, phone, social media, or even in person pretending to be a solar company. While reputable companies can help you save money with clean or solar energy improvements, scammers offer more than they can deliver. As more families consider solar energy improvements, dishonest companies exploit the fine print in solar panel. In the worst cases, homeowners have been left making payments on overpriced systems that don't work, with little to no support from the installation company that put the panels on their roof. To avoid getting scammed, you need to know what to look out for and when to walk away. Here's our guide to. This article explores the most common solar panel scams, provides tips to recognize red flags, and offers guidance on protecting yourself from fraudulent solar companies. This site receives compensation from the companies featured in this listing, which may impact where and how products appear.
