

Uzbekistan s efforts in building communication base stations

Overview

Uztelecom sets up 1,887 new mobile base stations in 2024, deploys over 70,000 km of fibre. To improve digital connectivity in Uzbekistan by expanding Uztelecom's high-speed wireless and fixed broadband network. As of 2022, 2G networks blanket 99% of the population, 3G covers about 90%, and 4G LTE reaches roughly. In January, Beeline Uzbekistan, part of the VEON Group, upgraded more than 150 previously launched base stations (BS) in the capital, ten regions, and the Republic of Karakalpakstan. As a result of these thorough. Uztelecom has expanded its 5G rollout to cover all regional centers across Uzbekistan. The carrier, which launched 5G in the capital city of Tashkent in 2022, revealed last week that its 5G non-standalone service is available across the country.
