## Overview

---

To fix this, you'll need to clean the connectors. Turn off your solar panel system first for safety. The issue might be simpler than you think – it could be the solar panel wire connectors! Understanding and fixing common connector problems can significantly improve your system's efficiency. Panels generally last well over 25 years and have no or few. Imagine your photovoltaic system suddenly performing like a lazy cat napping in sunlight - that's what happens when panel connections fail. Yet if the damage is severe, then replacing the panel may be the best option.
